Chris,

Can you explain the use of a fraudulent business address in court filings as recently as last week in your email signature? It appears to me that you never had a place of business in the Wrigley Building at 410 N. Michigan Ave.. I spoke to the receptionist of Oil Dri, the actual tenant of suite 400. There has never been an attorney officing with them or on the fourth floor. I spoke to the security guard. There is no KG Law in the building.

I've spent a lot of time and money serving you at a non-existent business address. Do you have an explanation?

Megan
